

- Name and surname: Anastasia Korotka
- Class, institute, country: I go to the 3rd class (C01) in Sxoli Omodous, in Cyprus.
- My specific in-depth topic chosen for home study was recycling.
- A comment about the activity done at home:
Recycling helps a lot the environment but also people's life. By studying in depth this topic at home I had the time to learn and implement some recycling practices that helped me saving money. I also learn to reuse some old objects in a different way.
- A comment about the interactive activity in the classroom: It was quite an interesting activity because I learned a lot and we talked about a lot of things that I didn't know.
