Report on e-learning and flipped classroom feedback

The e-learning was very good. We think it would be better with more visual examples such as videos and pictures, this would help in better understanding the video. A lot of new terms are mentioned in the video and to fully understand the video you need to watch it at least 2 times, but in the end, we can use the newly learned terms without any problems.

The flipped classroom was a lot of fun and great for revising everything from the video. We liked that we were able to comment with colleagues and clarify some concepts that we may not have fully understood.
